but the day passed without any additional engagements of gold for import being made.

Foreign houses are again fairly heavy sellers f stock in this market, and, in addition, the lower range of prices for American stocks in the London market was reflected in the opening dealings here. The total volume of business in stocks was smaller by 40 F cent, than it was esterday, but the trading in bonds was relatively better maintained. United States Govent securities were steady, and a sharp ad decline in the gold premium at Madrid may be regarded as significant as indicating the probble duration of hostilities.

The foreign exchange market was also weaker,

Speculative interest was fairly well distribited throughout the list. All of the notable active stocks showed declines in the day's trad ing, but American Tobacco was the only instance in which the loss exceeded fractional limits The dealings were heaviest elsewhere in Sugar Refining, Atchison preferred, Union Pacific preferred, Louisville and Nashville, and the Gran ger shares. Nearly all of the active lower-priced stocks were comparatively steady, Atchison pre-ferred, Missouri Pacific, and Chicago Great estern being cases in point.

"Farm work in this territory well advanced." Charlotte, N. C., May 7.—
"I weather for past ten days very unfavorable for cotton. Frost killed enough of the first planted cotton to necessitate replanting. Heavy cold rains backed the second planting, and it is not coming up well, and it is feared that much seed has rotted. Considerable ground yet unplanted. Think quite a good deal of cotton land has been planted in corn since the war earse. War has but yet affected labor in this section, but should more volunteers be called for, it will affect it very materially. Think acreage in this section about 10 to 15 per cent, leas than last year. We certainly have a very late and unfavorable start."
